

SICS eXpress

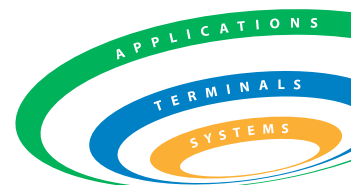

DMR DISPATCHER

As a key element of the Sepura DMR family of products, SICS eXpress provides organisations with a powerful and effective tool for managing and tracking both their employees and their vehicle fleets. Easy to install and operate, this powerful application package is the ideal management tool for a broad spectrum of sectors, including manufacturing, municipalities, retail and hospitality.

Going further in critical communications

PRODUCT OVERVIEW

SICS eXpress is a lightweight, easy-to-use but sophisticated dispatcher, Automatic Vehicle Location (AVL) and Automatic Person Location (APL) software application for use with Sepura's DMR family of products. The two variants, the 8000 and the 8200, meet a wide variety of customer requirements and incorporate a broad array of features, including:

MANAGEMENT / TRACKING FEATURES

- › Status messaging – to provide quick and simple updates
- › Group messaging – to provide effective team communications
- › Built-in emergency procedure look-ups – to ensure a swift and appropriate response
- › Remote monitoring capability – to keep control in a crisis
- › Approximate address look-up via reverse geo-coding – to help to locate people and vehicles quickly
- › Disable/Enable/Kill – to safeguard against mis-use
- › Variety of approved on-line mapping options – to provide choice*

*Only available on the 8000 variant

IN ADDITION, THE SICS EXPRESS DMR DISPATCHER OFFERS A RANGE OF CALL MANAGEMENT FEATURES

- › Call logging of all incoming calls – to help with training and management control
- › Time, date, caller ID – to keep accurate records
- › Group call – to ensure good team communications
- › Private call – to maintain privacy, when required
- › Emergency call alarm – to help in a crisis
- › Text messaging – to enable timely communication
- › Reseller/end-user logo display – to keep a clear identity

PC REQUIREMENTS

- › Operating system – Windows XP, Vista, 7, 8
- › Memory minimum – 1GB
- › Hard disk space minimum – 1GB

HARDWARE REQUIREMENTS

- › SBM8040 or SBM8340 desktop radio
